## EDUCATIONAL SESSION

### **A PARADIGM SHIFT: ACTIVITIES, COMMUNITY CULTURE & US**

**OLIVIA MOGAB, CTRS, CDP, CMDCP, CDSGF**

Olivia Mogab is a Certified Therapeutic Recreation Specialist with over 10 years of experience in Long Term Care, Post Acute and Senior Living. She has spent 8 of those years consulting Skilled Nursing and Rehabilitation Communities and Assisted Living Communities in multiple states. Creating and promoting inclusive Dementia and Behavioral Health programs is one of her current areas of focus. Her belief is if we can understand the need of the individual, respect and utilize their current abilities, then success for the community, those that live and work in them will always follow. She is passionate about the individuals living and working in these homes; and comes with an understanding that as those we serve change, so must we.

## LEARNING OBJECTIVES

- To understand the modern Long-Term Care and Post Acute population and how best to serve them
- The key steps in preparing your community to be an inclusive and safe environment for all; including all care partners
- How to provide a therapeutic resident-based program by utilizing residents remaining abilities, community strengths while promoting independence.

**4:00pm–5:00pm**

## EDUCATIONAL SESSION

### **THE POWER OF STORIES: BUILDING A FOUNDATION FOR LIFE AND LEADERSHIP**

**DAVE SPANGLER**

No stories of heroic deeds. No five step plans for more fame, more fortune, or more followers. Unplug and settle in for an authentic and uncensored conversation about real life. From timeshare to turkeys and construction to cancer Dave uses the stories of unique life and career experiences, success and failures to create an unusually personal connection with his audience and to challenge the way we view our world. The promising student destined for medical school confused family and friends at every turn with 30 years of head scratching life choices and a series of implausible adventures that tell a story of how purpose is found not in what we do but in who we are.

In Dave's words, "I am not a hero. I am not a titan of industry or a revolutionary. I have never saved a life or led an elite military organization. I love to hear the stories of people like that and there is much we can learn, but no matter how many stories I hear I find myself no closer to joining their ranks. I want to bring something more relatable and personal that will inspire you to see yourself and your world as something worthy of greatness."

After a variety of diverse careers, Dave has spent the last 14 years developing and leading the oncology management programs at Evicore Healthcare. He is a published research author and holds a technology patent for systems developed in the oncology space. He lives in Hilton Head, South Carolina with his wife of 22 years, Rion, and has two adult children, Coker and Caleb. He is an avid Do-It-Yourselfer and believes every broken thing is an opportunity for an upgrade!

## LEARNING OBJECTIVES

- Focus on long term leadership over short term rewards
- Recognize that we are leading even when no one is following
- Build a leadership structure based on a simple solid foundation
- Evaluate success and failure in the context of a larger journey
