GENERATIONAL CONNECTION: HOW TO MOVE MULTI-GENERATIONAL TEAMS FROM ISOLATED TO ALL IN

RYAN JENKINS

Ryan Jenkins is a Wall Street Journal bestselling leadership author on the topics of team connection, generational differences, and the future of work. Ryan’s thought leadership has been featured in Forbes, Fast Company, Fortune, and CNBC.

For over a decade as a keynote speaker and consultant, he has helped hundreds of the world’s leading organizations like Salesforce, Coca-Cola, Delta Air Lines, State Farm, and John Deere.

He is also the owner of Rivet, the AI- powered connection tool trusted by Netflix, Walmart, and PepsiCo to strengthen their teams and engage their audiences.

Today, Ryan is on a mission to help leaders and organizations Be Connectable™– unlocking the essential trait to move teams from isolated to all in.

Ryan lives in Atlanta, GA with his wife, three children, and a yellow Labrador.

LEARNING OBJECTIVES

- The latest science on connection and why it matters now more than ever
- Perspectives of each generation’s varying views of work, leadership, and communication
- Proven tools to build trust, empathy, and collaboration across generations
- Real-world examples of companies creating strong intergenerational cultures
- Understanding of The Team Connection Model™ to create highly connected, future-ready, and all-in multi-generational teams

KEY CHANGES IN 2026 FOR THE JOINT COMMISSION SURVEY PROCESS AND IMPACT ON SURVEYING IN THE PHARMACY

DR. JEANNELL MANSUR, PHARM.D., R.PH., FASHP, FSMO

Jeannell Mansur is Principal Consultant for Medication Management and Safety for Joint Commission Resources and Joint Commission International. In this role, she provides direction to hospital leaders on medication safety design, medication system optimization and technology implementation to support patient safety and effectiveness. Her expertise in lean six sigma and change acceleration performance improvement methods and tools is of immense value to organizations that are seeking to implement effective and sustainable improvement to challenging issues. Also, in her role as Principal Consultant, Dr. Mansur provides expertise to the Joint Commission enterprise on medication system themes. Dr. Mansur has been recognized for her distinguished work by the designation of Fellow with the American Society of Health-System Pharmacists and the American Society for Medication Safety Officers. She is a voting member of the United States Pharmacopeial (USP) Convention.

Dr. Mansur completed training with the Institute for Healthcare Improvement in medication safety under the direction of Drs. Donald Berwick and Lucian Leape. The learning from these leaders and the experiences from this Institute resulted in the crafting of a systems-based approach to medication safety that has molded Dr. Mansur’s philosophies.

Dr. Mansur has extensive experience in all aspects of medication system design and implementation as well as hospital pharmacy which includes clinical, operational and management responsibilities and clinical information systems implementation and held the position of Director of Pharmaceutical Services for 12 years at the University of Chicago Medical Center.

LEARNING OBJECTIVES

- Describe 2 changes in the Joint Commission standards in 2026 and the potential impact on the survey
- Describe 4 sterile compounding findings most commonly seen during a Joint Commission survey
- List 4 strategies to meet the most challenging sterile compounding findings

EDUCATIONAL SESSION

BUILDING AN INTEGRATED MEDICATION SAFETY PROGRAM

JOHLEE ODINET, PHARMD, BCPS, CPPS

Johlee is currently the System Director for Medication Safety at Ochsner Health. She received her Doctor of Pharmacy from Xavier University of Louisiana College of Pharmacy and continued on to complete a PGY1 Pharmacy Practice Residency and PGY2 Health Systems Medication Use Management Residency at the University of North Carolina Medical Center in Chapel Hill, NC. In her current role, she is responsible for setting strategic, quality goals for the pharmacy service line, focusing on multidisciplinary and pharmacy-centric alignment. Johlee has had the pleasure of serving as the PGY2 Medication Use, Safety, and Policy Residency Program Coordinator for the past 5 years and an LSHP Director at Large for the past 4 years.

Johlee also serves on ASHP’s Medication Safety Section Advisory Group, allowing her the opportunity to present both nationally and internationally on Medication Safety-related topics. She enjoys engagement in teaching efforts through her role as guest faculty at Xavier, ULM, UNC Eschelman School of Pharmacy, and the University of Queensland Medical School. Her current research and practice interests include medication use technology, trigger tool development, and Just Culture.

LEARNING OBJECTIVES

- *Develop strategies to secure multidisciplinary stakeholder buy-in to support a learning culture*
- *Outline the infrastructure of an integrated medication safety program, focused on proactive safety initiatives, and justification of dedicated resources*
- *Describe key metrics to objectively measure medication safety outcomes*

11:45am–1:00pm

LUNCH

12:15pm–1:15pm

LUNCH & LEARNS (BY ASSIGNMENT)

1:30pm–3:30pm

THE BUSINESS OF HEALTHCARE: WHAT ARE YOU DOING TO DRIVE HOSPITAL REVENUE

BONNIE KIRSCHENBAUM, BSCPHARM, MS, FASHP, FCSHP

Bonnie is a Health Care Consultant with senior management experience in the Pharmacy section of large corporate health care organizations, teaching hospitals and the pharmaceutical industry. She has a particular interest in reimbursement issues, specialty pharmacy, and patient safety, and in using technology to solve issues in each of these areas.

Bonnie has proven success in developing and managing national pharmaceutical programs and strong leadership skills with expertise in strategic planning and in forging alliances between hospitals, physicians, pharmaceutical companies and distributors and has spoken extensively in these areas.

She writes monthly columns on finance and reimbursement for Pharmacy Practice News and BioSupplyTrends quarterly that have a positive influence on pharmacy practice nationally. She is the 2015 Latiolias Leadership Award recipient from The Ohio State University. Bonnie shares her time between Boulder, CO and Breckenridge, CO where she is the Past President of the National Repertory Orchestra Board of Trustees and served on the Board of Directors of the Breckenridge Heritage Alliance.

LEARNING OBJECTIVES

- Explain 2026 changes to Medicare OPPS/ASC and PFS reimbursement for services and products as well as IRA and identify operational changes required to implement them
- Develop strategies for ensuring data accuracy/completeness submitted for reimbursement, transparency requirements and analytics subsequently feeding into the Big Data pool and AI
- Describe business model transitions from fee-for-service to capitated bundled payments, episode of care payments & site of care changes with the impact on clinical practice & revenue cycle
- Summarize outcomes associated with Pharmacy Revenue Integrity, including prospective denials management

DRUG PRICING UPDATE: KEY ISSUES REGARDING 340B COMPLIANCE AND DIRECT TO CONSUMER MODELS

MARK OGUNSUSI, PHARMD, JD

Sponsored By:

Mark Ogunsusi is a partner in the firm's Healthcare and FDA practice group. With over 15 years of combined experience as a pharmacist and healthcare lawyer, Mark advises clients on complex state and federal regulatory, transactional, and compliance issues across the pharmaceutical and healthcare delivery sectors. His practice spans pharmaceutical pricing, pharmacy operations, FDA and DEA compliance, pharmacy reimbursement, and legislative drafting and advocacy.

Mark represents health systems, integrated delivery networks, pharmacies, program vendors, and provider-related organizations. He is widely recognized for his deep experience with the 340B drug pricing program, including patient eligibility, virtual inventory accounting systems, contract pharmacy arrangements, HRSA audits, manufacturer disputes, and Medicaid carve-in/out strategies. He also advises health system and pharmacy clients on state and federal regulations governing PBM auditing, reimbursement, and disputes. He assists clients with navigating limited distribution models, specialty pharmacy contracting, innovative centralized and specialty pharmacy infrastructure, and cell and gene therapy arrangements.

LEARNING OBJECTIVES

- Identify high-risk compliance and operational areas within the 340B Program relating to patient definition, manufacturer audits, contract pharmacy restrictions, maximum fair price effectuation, and potential 340B rebate models impacting hospital pharmacy and 340B operations
- Understand state bills and laws that may impact hospital participation in the 340B Program
- Assess and implement newer strategies undertaken by safety-net providers to advance 340B savings and charity care
- Understand the elements and impact of direct-to-consumer drug pricing models
