

June 22–25 8:00am–5:00pm CT

what

What if we... *this summer?*

During a time when the value of making connections is so important, Health Connect Partners is excited to announce our new **Summer Session Hospital Pharmacy** event that will take place **June 14–July 1, 2021**.

Health Connect Partners will be hosting 125 of the most elite Hospital Pharmacy Directors/ IDN Hospital and Health system leaders in the industry for a **Live! ONLINE reverse expo** (June 22–25, 2021) experience. Each meeting will be **nine minutes** in length and will allow Providers and Suppliers to have live conversations online.

“The industry provided great feedback about our Live Online Reverse Expo events in 2020. After some idea sharing with our hospital customers and suppliers, we have created the Hospital Pharmacy Summer Session. The Summer Session will be an exciting addition to our event schedule this year and will provide high-quality meetings with each one-on-one live online engagement being nine minutes in length. The additional time and quality of the meeting was important to our customers, and this is going to be a game changer moving forward. We know our Live Online Reverse Expo platform has given suppliers and providers the connections that they have needed over the last year while meeting in person wasn’t possible. We feel that these types of continued opportunities to get and stay connected could complement our live-in person events in the future”.

Jason Green, Partner & CSO – Health Connect Partners
